CIP-760-CX

High-Capacity Call Control for Large-Scale Hospitality Operations

The ClearlyIP CIP-760-CX Call Controller is engineered for large hotels, resorts, conference centers, and multi-tenant hospitality properties where high call volumes are the norm. With the ability to handle up to 750 extensions and 200+ concurrent calls, it delivers the capacity, reliability, and performance required to keep both staff and guests seamlessly connected.

Built for demanding environments, the CIP-760-CX features dual 256 GB solid-state drives configured with RAID offer exceptional reliability, while gigabit network ports support robust connectivity across complex infrastructures. Its 8 GB of memory provides smooth performance, while the 1U rackmount chassis conserves valuable rack space in busy IT environments.

Integration is simple with dual serial ports, enabling direct connectivity with property management systems (PMS) and call accounting systems (CAS). Whether it's supporting a sprawling resort, a high-traffic conference venue, or a multi-tenant property, the CIP-760-CX is designed to scale with your needs while maintaining rock-solid performance.
