

WHAT IS IT?

ComXchange is an on-premises telephony system designed for hotels and offers essential features such as room-to-room calling, voicemail, wake-up calls, and integration with Hilton’s PMS. The system also offers emergency service (E911), an optional call accounting module, and the ability for staff to update room status directly from the in-room handset.

Scalable and managed through a web portal, ComXchange is built to support properties of all sizes.

Additionally, ComXchange integrates seamlessly with ClearlyIP’s proprietary SIP Trunk, providing properties with a one stop shop for all telephony needs.

DOES THIS INTEGRATE TO PMS?

- OnQ
- Opera
- PEP

IS IT AVAILABLE TO MY HOTEL?

ComXchange is available to properties in the following region(s):

| | MANAGED | FRANCHISED |
